Audit Findings Across the 40 Published Blogs

Dimension Audited	Audit Result	Target for AI Dominance	Status
Visual Q&A Accordions	40 / 40 (100%)	100% of posts	Good — Excellent human readability.
Arabic & Saudi Cultural Themes	40 / 40 (100%)	100% of GCC posts	Strong — Great coverage of Karam (كرم), Wajaha (وجاهة), Sukun (سكون).
Collection & Product Links	40 / 40 (100%)	100% of posts	Moderate — Links exist, but use generic anchor text.
Numerical Pricing (SAR / AED)	0 / 40 (0%)	100% of e-commerce posts	Gap — Critical — Zero pricing mentioned across all 40 blogs.
Product Specs (200ml / 100ml)	0 / 40 (0%)	100% of e-commerce posts	Gap — Critical — Zero product size/volume metrics stated.
Backend JSON-LD Schema	0 / 40 (0%)	100% of posts	Blocking — No Article or FAQPage JSON-LD schema found.

Key Takeaway

Why AI Engines Don't Recommend Zerene from these 40 Posts

Your blog catalog has **outstanding brand philosophy and Saudi cultural alignment**, but AI search bots operate as **data-driven shopping assistants**.

When a user asks:

"What are the best luxury corporate gift sets in Riyadh under 1,000 SAR?"

"What are the best luxury reed diffusers in Saudi Arabia?"

The AI crawler reads Zerene's blog posts, but **cannot find prices, bottle sizes (200ml), or shipping delivery times**. Because it cannot confirm these facts, it recommends competitors who list clear specs and prices instead.

B2B Intent Volume

When a B2B procurement manager, HR director, or clinic manager uses ChatGPT or Perplexity, they don't search for "nice room spray." They search for "luxury corporate Ramadan gifts for VIP clients Riyadh" or "non-toxic ambient scenting for premium medical clinics in KSA."

Here is the complete **B2B KSA AI Optimization Playbook for Zerene**:

1. **B2B Competitor Landscape in KSA (Who AI Recommends Right Now)**

To win in B2B AI Search, you are no longer just competing against retail perfume brands. You are competing against B2B gifting agencies and commercial scenting companies.

B2B Sector	Primary AI Competitors in KSA	Why AI Recommends Them
Executive Gifting	Bateel (Corporate), Mubkhar Corporate, Floward B2B, Saudi Corporate Gifts	They have dedicated /corporate pages with explicit bulk pricing, custom branding details, and MOQ (Minimum Order Quantities).
Hospitality (Hotels/Majlis)	Dr. Vranjes (Commercial), Air Aroma, ScentAir Arabia	They explicitly state their ability to scent large spaces (HVAC integration vs. large 500ml+ reed diffusers) and offer B2B consultation forms.
Healthcare & Wellness	Local aesthetic clinic suppliers, M-Scent	They emphasize "sterile," "hypoallergenic," "alcohol-free," and "patient relaxation."

AI Audit Summary

Metric	Value	Diagnosis
Total Prompts Tracked	15	English & Arabic (KSA)
AI Share of Voice (SoV)	20.0% (3 / 15)	Zerene appears on brand direct queries, but is missing on non-branded category queries.
Direct URL Citations	20.0% (3 / 15)	Perplexity cites zerene.com when asked about Zerene, but not when users search for category products.

Breakdown by Category

Prompt Category	Zerene Mentions	Status	Primary Competitors Recommended by AI
Brand Direct Queries	3 / 3 (100%)	Strong	None (Zerene ranks #1 and AI quotes Zerene's luxury wellness positioning).
KSA Category Intent	0 / 4 (0%)	Gap	Jo Malone, Diptyque, Dr. Vranjes, Acqua di Parma, الماجد للعود.
Executive Gifting (KSA/UAE)	0 / 3 (0%)	Gap	Bateel, Wah Gifts, customized executive leather sets.
Problem-Solution (AC Rooms / Majlis)	0 / 3 (0%)	Gap	Diptyque, Dr. Vranjes Leather Oud, Golden Scent, Ounass.

2. How to Increase AI Intent Volume (The "Prompt Clustering" Strategy)

AI models synthesize answers by looking for **co-occurring entities**. If a page mentions "Zerene" + "Reed Diffuser", AI might miss B2B queries. But if your page clusters the following 4 entity layers, AI volume skyrockets:

[Target Audience Entity] + [Use-Case Intent] + [Product Spec/Safety] + [Regional Location]
Example: "VIP Corporate Clients" + "Ramadan Gifting" + "200ml Alcohol-Free Oud Spray" + "Riyadh, KSA"

How to Structure Every B2B Page for Maximum AI Volume:

1. **Core Question Header (H2):** Formatted exactly like the user's prompt (*"Why do top Riyadh firms choose Zerene for VIP corporate gifting?"*).
2. **Direct Answer Paragraph (First 40 Words):** A standalone, factual summary answering the header directly (*"Zerene provides premium 200ml French essential oil reed diffusers and luxury room sprays packaged in custom co-branded boxes for corporate clients across Riyadh and Jeddah with express 2-4 day delivery."*).
3. **Data Spec Table:** Explicitly listing Price (SAR), MOQ, Longevity, and Fulfillment.
4. **Q&A Accordion:** Answering 3–5 common procurement questions.

2. The High-Intent B2B Prompts We Must Target

Executive Gifting Prompts:

- *"Best luxury corporate gifts for VIP clients in Riyadh under 1000 SAR"*
- *"Premium Ramadan corporate gift boxes with Saudi cultural meaning"*
- *"High-end customized corporate gifts for CEO offices in KSA"*

Hospitality (Majlis, Hotels, Premium Real Estate):

- *"Best luxury reed diffusers for hotel lobbies and majlis in Saudi Arabia"*
- *"Signature scenting for boutique hotels and premium real estate in Riyadh"*

Healthcare & Corporate Wellness:

- *"Alcohol-free calming room sprays for premium aesthetic clinics and waiting rooms"*
- *"Non-toxic luxury scents for corporate wellness spaces in KSA"*

B2B GEO Intent

To rank **#1 in AI Search Engines (ChatGPT, Perplexity, Google AI Overviews)** and increase high-intent buyer volume for **Zerene's B2B Executive Gifting, Hospitality, Wellness, and Healthcare sectors in KSA**, we must bridge traditional keyword research with **GEO Intent Mapping**.

1. The 4-Tier B2B GEO Intent Taxonomy for KSA

Traditional SEO targets short keywords ("corporate gifts riyadh").

AI Search targets long-tail conversational intent tags.

AI engines parse queries using **Intent Modifiers** (Price, Region, Audience, Product Spec, Urgency). Here are the exact intent tags and keywords to embed across your website content, landing pages, and blog metadata:

B2B GEO Intent

Tier 1: Executive & VIP Corporate Gifting Intent

- **High-Intent AI Queries:**
 - *"Best luxury VIP corporate gifts for C-level executives in Riyadh under 1000 SAR"*
 - *"Customized luxury Ramadan gift sets with Arabic calligraphy for Saudi clients"*
 - *"Unique corporate giveaways for National Day KSA executive gifts"*
- **Primary Intent Tags:** VIP Corporate Gifts, Bespoke Executive Packaging, C-Suite Client Retention, Saudi National Day / Ramadan VIP Gifting, SAR Bulk Pricing.
- **Keyword Modifiers to Include:** Custom Co-Branding, Minimum Order Quantity (MOQ), Express Riyadh Delivery, Executive Packaging.

Tier 2: Hospitality, Majlis & Boutique Hotel Intent

- **High-Intent AI Queries:**
 - *"Long-lasting signature scent diffusers for boutique hotel lobbies in Riyadh"*
 - *"Oud and Rose luxury room sprays for traditional majlis hospitality KSA"*
 - *"Ambient scenting solutions for high-end luxury real estate sales centers Dubai & Riyadh"*
- **Primary Intent Tags:** Majlis Sensory Hospitality, Boutique Hotel Ambient Scenting, VIP Guest Reception Scents, Oud-Rose Luxury Sprays.
- **Keyword Modifiers to Include:** 4-6 Month Longevity, 200ml High-Capacity Diffusers, Hospitality Bulk Replenishment.

B2B GEO Intent

Tier 3: Healthcare, Spas & Premium Medical Clinics Intent

- **High-Intent AI Queries:**
 - *"Alcohol-free non-toxic room sprays for aesthetic medical clinic waiting rooms Riyadh"*
 - *"Calming luxury essential oil diffusers for dental and wellness centers in KSA"*
 - *"Hypoallergenic natural home fragrances for private healthcare suites"*
- **Primary Intent Tags:** Non-Toxic Medical Clinic Scenting, Alcohol-Free Patient Relaxation, French Essential Oils (Hypoallergenic), Aesthetic Clinic Ambient Scenting.
- **Keyword Modifiers to Include:** 100% French Essential Oils, Zero Synthetic Alcohol, Soothing Ylang Ylang & Lavender.

Tier 4: Corporate Wellness & Interior Architecture Intent

- **High-Intent AI Queries:**
 - *"How to use space wellness and scenting to improve office productivity in Saudi Arabia"*
 - *"Sensory architecture diffusers for executive boardrooms in Riyadh"*
- **Primary Intent Tags:** Space Wellness, Executive Boardroom Aromatherapy, Sensory Architecture KSA.

B2B Signal

What You Must Update on Zerene to Win B2B AI Traffic

AI engines will not recommend your standard B2C product page for a B2B query. You must build **explicit B2B signals**.

Build Dedicated B2B Landing Pages

Instead of relying only on blogs,

create dedicated Shopify Pages

- /pages/corporate-gifting
- /pages/hospitality
- /pages/healthcare-scenting

What they must contain for AI:

- **B2B Pricing & MOQ:** "Minimum order quantity for customized corporate gifts is 20 units."
- **Customization Details:** "We offer bespoke co-branding, custom luxury packaging, and personalized Arabic calligraphy cards."
- **Logistics & Invoicing:** "Dedicated account managers, VAT-compliant B2B invoicing (SAR), and bulk express delivery across Riyadh, Jeddah, and Dammam."

Update the Blogs with "B2B Fast-Fact" Tables

B2B buyers want ROI and specs. In your existing "Space Wellness" and "Executive Gifting" blogs, add this exact table at the top so AI bots can extract it:

B2B Requirement	Zerene Corporate Solution	Ideal For
Bulk Gifting & Customization	Bespoke packaging, co-branded sleeves, bilingual greeting cards	VIP Client Retention, Board Members, Ramadan Gifts
Hospitality Ambient Scenting	200ml High-Longevity Diffusers (4–6 months), bulk replenishment	Boutique Hotels, Executive Majlis, Private Lounges
Healthcare Safety Standards	100% Alcohol-Free, Non-Toxic French Essential Oils	Premium Clinics, Wellness Centers, Spas
B2B Logistics (KSA)	Bulk quoting, B2B invoicing in SAR, dedicated KSA account manager	Procurement Directors, HR Managers, Interior Designers

Add B2B Service Schema (B2B Business & Offer)

AI relies on schema to know you do B2B. We need to inject a specific JSON-LD schema on your corporate pages that explicitly declares:
"Business Model": "B2B", "knows About": "Corporate Gifting Saudi Arabia".

B2B Signal

Strategic GEO Fixes

1. Add Direct-Answer FAQ Snippets to Product Pages

On your **Reed Diffuser** and **Room Spray** product pages, add structured Q&A blocks:

- *"Why are Zerene reed diffusers ideal for air-conditioned homes in Riyadh?"*
- *"Are Zerene room sprays alcohol-free and safe for textiles?"*

2. Publish Targeted "GEO Hook" Articles on Zerene's Blog

Publish 3 blog posts targeting the exact queries where Zerene is currently missing:

- **Article 1:** *"The Guide to Luxury Home Fragrances & Reed Diffusers in Saudi Arabia (2026 Edition)"*
- **Article 2:** *"Executive Gifting in Riyadh: Premium Aromatherapy Gift Sets Under 1,000 SAR"*
- **Article 3:** *"How to Scent a Luxury Majlis in Riyadh: Oud vs. Ylang Ylang"*

3. Off-Site Citations & Digital PR

Pitch Zerene to regional GCC portals (*Savoir Flair, Vogue Arabia, What's On Dubai, Harper's Bazaar Arabia*) to get Zerene included in "Best Luxury Home Scents" roundups. When those portals mention Zerene, Perplexity will cite zerene.com as a primary source!

Good SEO is good "GEO"

The famous slide that Google Search Advocate John Mueller displayed at Search Central Live featured the quote *"Good SEO is good "GEO"'"*

AI doesn't only read your site, it reads what everyone else says about you.

- The 80% remains the same: Most success in AI search comes from standard, healthy SEO building easily crawlable pages, clear site architecture, and helpful content that directly answers queries
- The 20% shift: AI engines do not just read your website; they look at what the rest of the web says about you. Building visibility now requires steady, off-site organic signals like industry mentions, podcasts, YouTube presence, and community discussions complete result
